

**PRINT THIS IN TWO COPIES;
KEEP THE SIGNED ONE AND GIVE THE OTHER TO THE PARTICIPANT**

Informed consent

This experiment is part of a student assignment in CS-C3120 Human–computer interaction course at Aalto University in autumn 2018. The experiment and its protocol have been designed by Lecturer Antti Salovaara (antti.salovaara@aalto.fi).

This study explores how people go about using a text editor software to perform various editing and formatting tasks (tasks not unlike you might have performed using Word for example). The study is expected to take approximately 10 minutes.

Please feel free to ask the experimenter any questions you might have before, during or after participating in the experiment. All information acquired will remain anonymous, confidential and will be stored in Aalto University’s MyCourses system. Access to the data is available only to course lecturers. The participant’s identity is not known by the course lecturer; only the experimenter who conducts this study will know it.

Participation in this experiment is entirely voluntary. You may refuse to participate or withdraw at any time.

I am willing to take part in this experiment with the conditions stated above.
